The Beast, an original play written by Marty Egan, is set in World War II occupied France. This will be the play's first fully staged production, directed by Monica Cangero. The Beast explores ethical and moral dilemmas which are universal to the human condition and transcend the historical setting of the piece.

This production is sponsored by the Not So Common Players of Clifton Park and is the organization's first fully staged **NON-MUSICAL** production.

Sides will be provided at the auditions.
