### ***This performance needs:***

Movers who would like to participate in a traditional Shaker Dance and Song performance. This part of the larger performance takes place before the passion dance/play. An enjoyment of dancing is really all that is required. The dances are simple (mostly moving and walking in patterns), easy to learn and fun. An ability to move for 20 minutes is needed. A singing voice is not required. We all sing, however, we play a recording of the songs by professional singers while we sing and dance. Old and young are invited to join. We are looking for 20 participants.

### **Requirements:**

Attendance at early evening or weekend rehearsal, once a week from March - performance day. Rehearsals will be based on most people's availability. A joyful attitude with a desire and ability to work in a community group.
